Introduction

On December 14, 2001, the Ontarians with Disabilities Act, 2001 (ODA) was passed to improve access and opportunities for people with disabilities. The Act provides for their involvement in identifying, removing and preventing barriers so that all citizens within the province can participate fully in society. The Accessibility for Ontarians with Disabilities Act was passed in 2005 (AODA) and **the standards** within the Act were developed. The **Customer Service Standard** was the first accessibility standard to be distributed under the AODA and came into effect on January 1, 2008. Public sector organizations were required to comply with this standard by January 1, 2010. The Integrated Accessibility Standards (Ontario Regulation 191/11), which included **Information and Communications**, **Employment** and **Transportation** standards, came into effect in June 2011. Public sector organizations are required to comply with these standards by January 2014. On January 1, 2013 the Integrated Accessibility Standards regulation was amended to include accessibility requirements for the design of public spaces with compliance expected by January 1, 2016. This standard is called the **Built Environment**.

Executive Summary

This is the eleventh plan prepared by the Accessibility Working Group of the Renfrew County Catholic District School Board (RCCDSB). The report describes:

1. Last year's progress on identified barriers;
